## Appearance of the Horse pg: 19

### 2. Grooming

c.. Trimming of the mane and tail should correspond to breed standards. If not trimmed the mane and tail must be clean and free of snarls, with the mane trained properly to fall on the side of the neck. If you braid the tail you must braid the mane. If you have a roached mane, do not braid the tail. Braiding of the mane only will be acceptable. Braiding yarn should match the mane and tail in color. It is recommended that if you do braid, do both the mane and the tail, or let the mane and tail flow free and natural. Braiding is optional and the Judge is not to take preference. Banding of the mane is permissible.
