FOURTH place	5 Points
FIFTH place	4 Points
SIXTH place	3 Points
SEVENTH place	2 Points

NINTH place	Honorable Mention (0 Points)

1. At the District Level, placing ties must be broken by the Judge or worked off in contesting. Tied entrants shall receive equal points. The next lower placed team shall not receive more points than the tied teams. Points will be determined by this calculation – the number of points awarded for the winning placing, added to the next lower number of points for each team involved in the tie, then that point total will be split evenly among the tied teams. The next place finisher (team) not involved in the tie will receive the placing and points following (the number of) the teams involved in the tie. Examples:
 - a. A two-team tie for first place will be calculated by adding 8 points (1st place) + 7 points (2nd place) = 15 points. 15 points, divided by 2 = 7.5 points per tied team. (8 + 7 = 15 divided by 2 = 7.5) The next place finisher will be awarded 3rd place and 3rd place points = 6 points.
 - b. A three-team tie for 2nd would be 7 points (2nd place) + 6 points (3rd place) + 5 points (4th place) = 18 points divided by 3 = 6 points per tied team (7 + 6 + 5 = 18 divided by 3 = 6) The next place winner will be 5th place, receiving 5th place points = 4 points.
- E. The team that has the highest number of points at the completion of all events shall be considered the winner.
- F. In the event of a tie, there will be no run-off and each first-place team will stand as co-champions. This includes regular meets, Regional Meets and the State Championship Meet(s).
- G. Meets shall be judged according to rules found in the Handbook under section titled Rules and Regulations. Each event shall have a detailed description to further explain guidelines of the events in the Rules and Regulations section of this book.
- H. Registration for events shall be submitted for entire team by Coach prior to commencement of first class in the meet. No changes shall be made once preceding class enters the ring, except in the event of an illness or injury to a horse or rider. In this case, a substitution would be allowed as long as the affected class is not detained.
- I. A Coach is to request all tack changes to entry table. Tack changes will be limited to 5 minutes. Timing of tack changes will be done by announcer or ringmaster. He/she is to use a stopwatch. Timing will begin when last horse from previous class leaves the ring.

Any claimed infraction of an MIHA rule by riders, coaches, adult volunteers, judges, grooms, and/or show committee during competition must be registered (protested) with the District Chairperson by a registered adult coach prior to the commencement of the second following class. The start of judging of the next class constitutes a waiver of any alleged violation of MIHA rules. The District Chairperson will notify the judge through the ringmaster of the grievance. Otherwise, the judge's decision is final.

RULES AND REGULATIONS GOVERNING COMPETITION

Showing a horse is an art and should be considered as such by the showman and judge alike. Proper showing testifies to the obvious pride the showman has in the animal being exhibited. This pride is evidenced by the condition and appearance of the horse and by the actions of the exhibitor and horse in the ring which indicate previous training to form a coordinated team. MIHA embraces the use of different breeds and while MIHA has general standards, judges should recognize showmanship competence that follows breed standards for the breed being shown. Judges are expected to be familiar with all breed standards and judge on ability of the showman. Technical points and minor infractions of rules should

not be over-emphasized to the extent that they outweigh an effective job of presenting a clean, well-conditioned, trained animal.

General Rules for Competition

- A. Riders must have their assigned number in a visible position, either on both sides of their saddle pad/blanket or in the center of their back. Failure to wear the correct number during competition is cause for disqualification. Riders with obstructed or illegible numbers will also be disqualified.
 - 1. Assigned back number shall mean the numerical number assigned by the show committee. Riders may not choose their own back numbers.
 - 2. Back number used by riders that are not issued by the show committee should in no way designate which team a rider is competing for. Numerals must be solid black on white background. No team colors or writing other than the numerals shall appear on the placket.
- B. When patterns are used in a class, riders should have access to those patterns at least ½ hour before the class. Not to be confused with individual tests the judge may ask for during a class where a pattern was not used.
- C. No rider is allowed to use any kind of electronic transmitting device during MIHA competition (except with a certified disability).
- D. A fall of the horse or rider either on course during a timed event or in the arena during any other class shall be a disqualification. A competitor is considered to have fallen when he or she is separated from the horse in such a way as to necessitate remounting or vaulting back into the saddle. A horse is considered to have fallen when, at the same time, its shoulder and hip on the same side have touched either the ground, or an obstacle and the ground.
- E. Contestants must be penalized for incomplete appointments. The penalty will depend on the nature and extent of the omissions or the inappropriateness of the appointments.
- F. Coaching from the rail will not be penalized.
- G. Judges, at their discretion, may authorize adjustments to attire due to weather-related conditions.
- H. When lightening is observed, the competition is suspended and contestants/horses/spectators will take shelter and shall not return to the arena until the lightening has been absent from the sky for 30 minutes.
- I. One of the following class methods will be selected by the judge, in consultation with the show chairperson:
 - 1. Rail work only: walk, jog/trot or second gait and lope/canter in each direction.
 - 2. Rail work: walk, jog/trot or second gate and lope/canter in at least one direction, followed by a pattern or test of the top exhibitors.
 - 3. If patterns are used, rail work is optional. If rail work is performed, it must be at least one way with all 3 gaits. At the State Championship meet, a pattern will be performed by all exhibitors.
- J. The wearing of team apparel in any class other than gymkhana events will be cause for disqualification.
- K. Gymkhana appointments are only appropriate in Trail and Gymkhana events.

- L. **Blinkers**, leg wraps, draw reins, German Martingales or other devices that are deemed unsafe or abusive by the judge will not be allowed in any class. If you question whether the device can be used, ask your coach before the coaches meeting so they may ask.
- M. A judge shall have the authority to require the removal or alteration of any piece of equipment which, in his/her opinion, would tend to give a horse or rider an unfair advantage.
- N. Show management shall have the authority to change or alter patterns, ring assignments or reschedule classes for safety reasons related to weather conditions.
- O. Horses will be allowed to wear protective bandaging for superficial injuries.
- P. No camera footage (video or still photography) may be used to overturn a judge's decision.

If snaffle rein has not been removed, it should be placed over the horse's withers. The horse is led and presented with the curb rein only.
- f. All show halters, regardless of the class shown, must have a throat latch and be acceptable to breed standards.

Exhibitors participating in Western Equitation Walk/Trot or English Equitation Walk/Trot are not eligible to enter Western Bareback.*

D. Western Riding Pattern

This class is a combination class which is designed to show characteristics of control and skills used in equitation, reining and trail classes. Further, it combines the maneuvers needed for a handy working ranch horse and rider. MIHA scores sheets will be used for this class for exhibitor feedback and are available at MIHA.org

The rider is judged in this class on his/her ability to govern, control and properly exhibit the mount he/she is riding in the required pattern. (See appendix for pattern of the year). Particular emphasis shall be placed upon basic position in the saddle, lightness of hands, change of leads, use of aids, smoothness of performance, steadiness of gaits and response to the rider. Conformation will not be judged. Preference shall be given to flying changes of leads midway between the markers throughout the entire class. This indicates the control of the rider over his/her mount.

The position of the rider's free hand is optional but should indicate a relaxed, not sloppy, balanced attitude of the body and should be kept free of the horse and equipment. Any horse not following the exact pattern will be disqualified. Knocking down of markers or obstacles will also disqualify a contestant.

Using two hands on the reins (unless riding with a snaffle or bosal), changing hands on the reins, or touching any part of the saddle with

his/her free hand is a disqualification. Only one hand may be used on reins and hands must not be changed. Hands are to be around reins; one finger between reins permitted.

Spurs or romal shall not be used forward of the cinch. While horse is in motion, the rider's hands shall be clear of the horse and saddle.

On the pattern:

1. The eight small circles represent pylon markers (cones are recommended). These should be separated by a uniform measured distance of not less than 30 feet or more than 50 feet on the sides with 5 markers (see diagram in appendix) in pattern one the three markers on the opposite side should be set adjacent to the appropriate markers, in pattern three the two markers on the opposite should be set adjacent to their appropriate markers. It is recommended that markers be set a minimum of 15 feet from the fence and with 50 to 80 foot widths, in the pattern, as the arena permits.
2. A solid wood log or pole should be used, and be a minimum of 8 feet in length.
3. The long serpentine line indicates the direction of travel and gaits at which the rider is to travel. The recommended lead changing point is equal to 1/2 stride length before or after the center point between the markers. The recommended lead changing point is shaded in all pattern diagrams. The dotted line (.....) indicates walk, the dash line (— — —) indicates jog, and the solid line (____) indicates lope.

Scoring:

1. Scoring will be on a basis of 0-100 with 70 denoting an average performance.
2. Scoring guidelines to be considered: points will be added or subtracted from the maneuvers on the following basis, ranging from plus +1.5 to minus -1.5; with -1.5 extremely poor, -1 very poor, -.5 poor, 0 average, +.5 good, +1 very good, +1.5 excellent. Maneuver scores are to be determined independently of penalty points.
3. A rider shall be penalized each time the following occur:

Five (5) Points

- a. Failure to change leads including cross cantering (note: failures to change, including cross-cantering, at two consecutive change areas would result in 10 penalty points).
- b. Blatant disobedience.
- c. Use of hand to instill fear in horse.

Three (3) Points

- a. Not performing the specific gait (jog or lope) or stopping when called for in the pattern, within 10 feet of the designated area.

E. Western Reining

1. Each contestant will perform the required pattern individually and separately (see appendix for pattern of the year). Horse shall rein and handle easily, fluently, effortlessly and with reasonable speed throughout the pattern. Any horse not following the exact pattern will be disqualified.
2. Each horse and rider combination will be judged on the neatness, dispatch, ease, calmness, and speed with which they perform the pattern. MIHA scores sheets will be used for this class for exhibitor feedback and are available at MIHA.org

Scoring:

1. Scoring will be on a basis of 0-100 with 70 denoting an average performance.
2. Scoring guidelines to be considered: points will be added or subtracted from the maneuvers on the following basis, ranging from plus +1.5 to minus -1.5; with -1.5 extremely poor, -1 very poor, -.5 poor, 0 average, +.5 good, +1 very good, +1.5 excellent. Maneuver scores are to be determined independently of penalty points.

- e. Horse does not completely pass the specified marker before initiating stop position.

One (1) Point

4. Faults against the rider to be scored at the discretion of the judge.
 - a. Opening mouth excessively.
 - b. Losing a stirrup.
 - c. Any unnecessary aid given by the rider (such as unnecessary talking, spurring, quirting, jerking of reins, etc.)

 - g. Stumbling.
 - h. Backing sideways.

Disqualifications:

1. Spurs or romal shall not be used forward of the cinch.

3. No hackamores, martingales, noseband or tie-down will be permitted.
4. Off-course or course not completed.
5. Use of more than one finger between the reins.

6. Changing hands on the rein or use of two hands on the reins (with the exception of junior horses in a snaffle or bosal).
7. Knocking over markers.
8. Blatant disobedience to include kicking out, biting, bucking, and rearing
9. Fall by the horse or rider.

E. Ranch Riding

This class is used to demonstrate the characteristics of control and skills used in equitation, reining, and trail classes. It combines the maneuvers needed for a handy working ranch horse and rider. The rider is judged in this class on his/her ability to govern, control, and properly exhibit the mount he/she is riding in the required pattern. Particular emphasis shall be placed upon basic position in the saddle, lightness of hands, change of leads, use of aids, smoothness of performance, steadiness of gaits, and response to the rider.

The overall cadence and performance of the gaits should emphasize forward movement, free-flowing and ground covering movement for all gaits. Transitions should be performed where designated, with smoothness and responsiveness. Posting at the extended trot is acceptable. *Touching or holding the saddle horn is acceptable while exhibiting the extended trot.* Only one hand may be used on the reins and hands must not be changed. Hands are to be around reins; one finger between reins permitted. The position of the rider's free hand is optional but should indicate a relaxed, not sloppy, balanced attitude of the body and should be kept free of the horse and equipment.

Any horse not following the exact pattern will be disqualified.

On the pattern:

1. A solid wood log or pole should be used, and be a minimum of 8 feet in length. (Up to 4 needed)
2. The long serpentine line indicates the direction of travel and gaits at which the rider is to travel. The recommended lead change point is equal to $\frac{1}{2}$ stride length before or after the center point between the markers. The recommended lead change point is shaded in all pattern diagrams. The dotted line (...) indicates walk, the dash line (---) indicates trot, darker thicker dashes indicates extended trot, the solid line (___) indicates lope, darker thicker line indicates extended lope, and (////) indicates backing.

Scoring:

1. Scoring will be on the basis of 0-100 with 70 denoting average performance.
2. Scoring guidelines to be considered: points will be added or subtracted from the maneuvers on the following basis, ranging from +1 $\frac{1}{2}$ to -1 $\frac{1}{2}$; with -1 $\frac{1}{2}$ extremely poor, -1 very poor, - $\frac{1}{2}$ poor, 0 average, + $\frac{1}{2}$ good, +1 very good, +1 $\frac{1}{2}$ excellent. Maneuver scores are to be determined independently of penalty points.
3. A rider shall be penalized each time the following occur:

Five (5) Points

- Blatant disobedience (kick, bite, buck, rear, etc.)
- Each refusal

Three (3) Points

- Break of gait at a walk or trot for more than two strides
- Break of gait at a lope
- Wrong lead or out of lead

- Draped reins (per maneuver)
- Out of lead or cross-cantering more than two strides when changing leads
- Trotting more than three strides when making a simple lead change
- Severe disturbance of any obstacle

One (1) Point

- Over-bridled (per maneuver)
- Out of frame (per maneuver)
- Break of gait at a walk or trot for two strides or less

- Horse opening mouth excessively or raising head on maneuvers
- Anticipating signals or early lead changes
- Stumbling
- Rider losing stirrup
- Any unnecessary aid given by the exhibitor such as unnecessary talking, petting, spurring, quirting, or jerking of the reins

Credits to the rider

- Change of leads, hind and front simultaneously
- Changes at designated point
- Accurate and smooth pattern
- Even pace throughout
- Easy to guide and control with rein and leg
- Manners and disposition
- Maintaining correct seat throughout pattern

F. Western Riding Pattern and Western Reining or Ranch Riding (Junior Division)

1. *Only walk, trot, and canter riders will be allowed in these classes.*
2. *Riders will use the patterns found in the appendix of this book labeled Junior Division.*
3. *The same scoring and penalty system will be used as the High School division.*

G. Western Equitation Walk/Trot (Junior Division)

To be judged as Western Equitation.

Performance will be rail work, walk and jog in each direction. In addition, the judge may ask for a walk/jog pattern or test of the top exhibitors.

Exhibitors in Western Equitation Walk/Trot may participate in Showmanship, English Equitation Walk/Trot, Trail and the timed events, but may not canter in any class entered.

Saddle Seat Performance Classes

A. Clothing and Equipment

1. **Appointments of Horse:**
 - a. Saddle must be a flat English type commonly called cutback. Dressage, Forward seat, Western and Side Saddles are prohibited.
 - b. Entries shall be shown in a full bridle (snaffle and curb) or English Pelham. Four reins are required on the bridle.
 - c. A Racking Horse or Tennessee Walking Horse may be shown in a typical Walking Horse (curb) bridle.
 - d. No bit converters are permitted. Martingales and tie-downs are prohibited.
2. Appointments of Rider: Clothing need not be expensive, but must be neat, clean and well fitted.
3. Exhibitors must wear a derby, Homberg, snap brim or protective head gear, protective headgear required for Saddle Seat Bareback. Riding habit must include a jacket in conservative colors with collars and lapels of the same color, herringbone, tweeds and pinstripes or other combinations of colors that appear solid are acceptable. Habits must also include Kentucky jodhpurs, vest, dress shirt and tie. Boots must be of the jodhpur or Paddock without lacing style and either patent or regular leather. A whip, gloves and small boutonnieres or lapel pins are optional. Spurs must be of the English un-roweled type. Only standard equitation whip (not to exceed 36 inches) may be carried. No Day Coats or Tuxedos. Coats and jodhpurs (pants) must be of matching colors, but materials can differ.

B. Saddle Seat Equitation

1. Hands: Should be held in an easy position, neither perpendicular nor horizontal to the saddle, and should show sympathy, adaptability and control. The height the hands are held above the horse's withers is a matter of how and where the horse carries its head. However, the reins and the rider's forearm shall form a straight line from the horse's mouth to the rider's elbow. The method of holding the reins is optional, except that both hands shall be used and all reins must be picked up at one time. Bight of rein should be on the off-side.

Hands when a Walking horse bit is used.

Hands when a full bridle or Pelham are used.

2. Position: To obtain proper position, the rider shall place himself comfortably in the saddle and find his/her center of gravity by sitting with a slight bend at the knees but without use of irons. While in this position adjust leathers to fit. Irons should be placed under the ball of the foot neither at toe nor 'home', with even pressure on entire width of sole and center of iron. Foot position should be natural. Toes should not turn in (causing cocked ankles), nor out. In a natural foot position the toes may turn out at a very slight 15° angle. A vertical line drawn from rider's shoulder downward should ideally pass through shoulders, hips and heels. Judges should note that the required equitation seat should in no way be exaggerated, but should be thoroughly efficient and comfortable. In Saddle Seat equitation classes, riders should convey the impression of effective and easy control. The ideal is a rider who presents his/her horse and shows him/her to the best advantage. The picture as a whole is of major importance.
 - a. Walk: slight motion in saddle.
 - b. Trot: slight elevation in saddle, hips under body at post, not swinging forward and backward. Motion should be fluid and timed with the horse's stride, not a mechanical up-and-down. (No posting at second gait.)
 - c. Canter: close seat, going with horse, not pumping.
3. Suitability: Rider should fit horse, and the spirit of the horse should be equal to the rider's ability. Horse must be serviceably sound. The horse's performance, however, should be equal to the rider's ability for effective control. An infraction or misbehavior on the part of the horse should be noted in relation to the effectiveness of the method used by the rider to handle the situation.
4. Performance: Results as shown by performance of the horse are not to be considered more important than the method used in obtaining them. Walk, trot (or second gait) and canter (or third gait) either or both ways of the ring (at the judge's discretion). Riders on gaited horses are not expected to post. The order to reverse may be executed by turning either toward or away from the rail. Light contact with the horse's mouth is required. Hand and leg aids should be subtle and quiet. Horses in Saddle Seat classes are presented in a highly-collected, animated

fashion. The rider of a brilliant horse should not be penalized because the horse does not appear to give a pleasure ride consistent with the judge's personal preference. (Many Saddle Seat equitation horses are not pleasure horses.). Good timing and judgment should be recognized. (Infractions of the horse caused by the rider should, of course, be penalized.)

5. When judges use individual tests during a class, they may use the following tests or any other they deem to be fair and appropriate.
 - a. Address reins.
 - b. Back.
 - c. Individual performance on rail.
 - d. Figure Eight at trot, demonstrating change of diagonals. At left diagonal, rider should be sitting the saddle when left front leg is on the ground. At right diagonal, rider should be sitting the saddle when right front leg is on the ground. When circling clockwise the rider should be on the left diagonal, when circling counter clockwise the rider should be on the right diagonal.
 - e. Figure eight at canter. Lead change preference should be instructed by the judge (full stop, through the walk or through the trot), figures commenced in center of two circles so that one lead change is shown.
 - f. Change leads down center ring, stopping at each change.
 - g. Halt from the canter through the trot and walk.
 - h. Serpentine at the trot, changing diagonals. The rider should perform a series of left and right half circles equal in size along a straight line (usually the center line). When the rider crosses the line, the horse should be at right angles to that line for one stride before curving into the next half-circle.
 - i. Ride without stirrups.
 - j. Serpentine, alternating gates.
 - k. Extend the trot.

C. Saddle Seat Bareback Equitation

1. All rules and specifications for Saddle Seat Equitation should also apply to Saddle Seat Bareback classes, with the exception of those which deal with the saddle. Work-offs in all bareback classes are optional.

D. Saddle Seat Pattern

1. Suggested Saddle Seat patterns (Patterns are shown in the Appendix section of this rule book.)
2. Pattern to be determined annually by the membership from suggested list.
3. Judge will use individual score sheets to be provided by MIHA (example found in the Appendix section of this rule book.)
4. A reader shall not be permitted to read for the rider.
5. Patterns should take place in a full-size arena with or without the use of markers.

6. When the rider makes an error of test, such as rising trot when the test calls for sitting trot or wrong diagonals, judges will penalize the rider with a lower score.
7. When a rider makes an error in the course, including faults such as omitting a movement or a turn in the wrong direction, but the rider returns to the point of error before the next movement and rights themselves, the rider will score a 0 on that movement but will not be eliminated from the class.
8. When a rider makes an error in the course that results in the rider being off pattern and not correcting themselves before the next movement will be eliminated from the class.

Hunt Seat Classes

A. Clothing and Equipment

1. Appointments of the Horse:
 - a. Saddles must be of the English forward seat, hunting style or dressage style.
 - b. Only hunt seat bridles and dressage style bridles are permitted. A cavesson or drop nose band is required (except in timed events). Only regulation snaffles, English pelhams, kimberwicks and full bridles (curb and bradoon snaffle) will be allowed. References to snaffle bits mean conventional O-ring, Egg-butt or D-ring, Half Cheek, and Full Cheek.
 - c. Breastplates are permitted but not required.
 - d. Martingales, bell boots and splint boots are permitted in the equitation over fences class but prohibited in flat classes.
 - e. The use of a fitted saddle pad and stirrup treads are recommended.
 - f. Crops must be of the regular Hunt Seat type if used.
 - g. Colored brow bands or colored nose bands are prohibited.
2. Appointments of the Rider
 - a. Exhibitors must wear an ASTM/SEI approved helmet with strap or harness secured under the chin in all hunt seat performance classes.
 - b. Coats and blazers must be of the hunt type in conservative colors.
 - c. Dress shirt with tie or a traditional English shirt with rat catcher collar is acceptable. *Dickeys are allowed as long as the rider is wearing a camisole, tank top or t-shirt underneath the dickey and hunt coat.*
 - d. Riding breeches in standard colors and a belt if belt loops are present are required.

- e. Dress or Field boots in black or brown, are required. Junior riders may wear cuffed jodhpur pants and jodhpur boots with garters or legging straps.
- f. Gloves and collar pins are optional.
- g. Crop or hunt type bat are permissible in all classes. Spurs are optional but must be of the English type, including blunt roller types.
- h. No Half Chaps are allowed.

B. Hunt Seat Equitation

1. Hands: The method of holding the reins should be consistent with the type of equipment used. The hands should be over the withers, with the knuckles 30 degrees inside the vertical and the hands slightly apart. The arms should be positioned so that a straight line is made from the horse's mouth to the riders elbow. The hands should show sympathy, adaptability and control. One or two rein bridles may be used however, all reins must be picked up at the same time.

Hands when a single rein bridle is used.

Hands when a double rein bridle is used.

2. Position: To obtain proper position, the rider shall place himself comfortably in the saddle and find his/her center of gravity by sitting with a slight bend at the knees. Irons should be placed under the ball of the foot neither at toe nor 'home', with even pressure on entire width of sole and center of iron. Foot position should be natural, ankles flexed in, and heels down, calf of the leg in contact with the horse and slightly behind the girth. A vertical line drawn from rider's shoulder downward should ideally pass-through shoulders, hips and heels. Judges should note that the equitation seat should be thoroughly efficient and comfortable.
3. Suitability: Rider should fit horse, and the spirit of the horse should be equal to the rider's ability. Horse must be serviceably sound.
4. Performance: Walk, trot/second gait and canter either or both ways of the ring (at the judge's discretion). Riders on gaited horses are not expected to post. Results as shown by performance of the horse are not to be considered more important than the method used in obtaining them. The order to reverse may be executed by turning either toward or away from the rail. Light contact

with the horse's mouth is required. The Hunt Seat horse should move with a long, low stride and cover ground with relaxed free flowing movement. Mounts should be responsive and smooth during transitions.

5. When judges use individual tests during a class, they may use the following tests or any other they deem to be fair and appropriate.
 - a. Back.
 - b. Individual performance on the rail.
 - c. Figure Eight at trot, demonstrating change of diagonals. At left diagonal, rider should be sitting in the saddle when left front leg is on the ground. At right diagonal, rider should be sitting the saddle when right front leg is on the ground. When circling clockwise the rider should be on the left diagonal; when circling counter-clockwise the rider should be on the right diagonal.
 - d. Figure Eight at a canter on correct lead with simple change of lead. Figures to be commenced in center of two circles so that one change of lead is shown.
 - e. Ride without stirrups. Stirrups must remain hanging unless otherwise directed by the judge.
 - f. Canter a straight line with lead change.
 - g. Execute serpentine at the trot, changing diagonal and/or canter demonstrating simple or flying change of leads. A series of left and right half circles off center of imaginary line where correct diagonal or lead change must be shown.
 - h. Execute a 180, 270 or 360 degree turn on the forehand.
 - i. Address reins.
 - j. Hand gallop and pull up.
 - k. Counter canter at least 15 feet of the rail.
 - l. Serpentine alternating gaits.
 - m. Answer questions judge may ask. It is recommended that identical questions be asked of each rider. An example would be one each of tack, anatomy and equitation.

C. Hunt Seat Bareback

To be judged the same as Hunt Seat Equitation except there will not be a saddle or pad of any kind. Work-offs in bareback classes are optional.

D. Equitation Over Fences

The class is judged on the rider's ability over the fence not the horses. Only the effect the rider has on the horse is to be considered, i.e. horse knocking or dropping a rail. Any refusal should be considered a major fault. How the rider elects to ride the course, the pace and approach to the jumps is used to evaluate the rider's judgment and abilities. The exhibitor is being judged the minute they step into the arena. They may enter the ring at a walk. They may transition to the canter from any gait before approaching the first fence. Each competitor may circle once before approaching the first obstacle, and then proceed around the course keeping an even hunter pace. Correct &/or consistent strides between jumps should be rewarded. Riders should obtain correct leads when making

turns throughout the course. At the end of the course riders should display a courtesy circle and leave the arena at a walk.

1. Fence height for horses/equine over 14.2 hands competing on the High School team will be 2'6".
2. Fence height for ponies/equine 14.2 hands and under competing on the High School team will be 2'3", when requested by a coach.
3. Three refusals (cumulative) on course will eliminate the entry. Except for refusals, jumping faults of the horse such as touches and knock-downs are not to be considered unless it is the result of the rider's ability.
4. If a rider is off-course, this automatically eliminates the ride.
- 4a. Other causes for elimination may include bolting, loss of control, bucking, rearing or other major disobedience.
5. If a fall, three refusals, or off-course occurs during a work-off, the entry shall be placed last of all those chosen for a work-off.
6. ASTM/SEI protective headgear must be secured with chin strap when jumping. Infraction of this rule will result in disqualification.
7. One practice fence will be set up inside or outside the ring 1/2 hour before the jump class.

E. Equitation Over Fences Course

1. Suggested Hunt Seat Pattern or courses (see Appendix).
2. Pattern or course to be determined annually by Board of Directors from suggested list.
3. Ground poles are required on the approach side of each jump.
4. Any jump over two feet is required to use two poles as an obstacle or use fillers, such as bales, barrels, plants, or other fillers which are available at the site
5. Any variation of obstacles is up to the discretion of the District Chairperson or Show Committee. Should a coach feel an obstacle to be hazardous to the rider or horse, he/she may protest. The Judge's decision as to its change or elimination shall be final. (This must be done prior to the start of the class.)
6. Riders and Coaches will be allowed to walk the course for 15 minutes before the Equitation Over Fence class begins.
7. It is recommended the jumps be set at distances of multiples of 12 feet, with minimum of 46 feet between jumps.
8. Recommendations for stride distances:

46' = 3 strides for horses and 4 strides for ponies
58' = 4 strides for horses and 5 strides for ponies
70' = 5 strides for horses and 6 strides for ponies
82' = 6 strides for horses and 7 strides for ponies
9. Appropriate striding will be noted on Regional and State Meet Patterns.

A. English Equitation Walk/Trot (Junior Division)

1. *To be judged as Hunt Seat or Saddle Seat Equitation.*
2. *To be ridden in either Hunt Seat or Saddle Seat Appointments. The tack and attire must match the seat being ridden.*

3. *Performance will be rail work, walk and trot in each direction. In addition the judge may ask for a walk/trot pattern or test of the top exhibitors.*
4. *Exhibitors in English Equitation Walk/Trot may participate in Showmanship, Western Equitation Walk/Trot, Trail and the timed events, but may not canter in any class entered.*

B. *English Bareback (Junior Division)*

1. *To be judged as Hunt Seat or Saddle Seat Equitation except there will not be a saddle or pad of any kind.*
2. *Performance will be rail work, walk and trot in each direction. In addition the judge may ask for a wall/trot pattern or test of the top exhibitors.*
3. *Exhibitors participating in Western Equitation Walk/Trot or English Equitation Walk/Trot are not eligible to enter English Bareback.*

C. *English Equitation Over Fences (Junior Division)*

1. *Only walk, trot, canter riders will be allowed in this class.*
2. *Riders have the option of approaching the first fence at a trot.*
3. *Junior Division fences to be 18" regardless of the horse or pony height. If cross poles are used the height is to be measured at the center of the cross of the poles.*

Trail Class

A. *Clothing and Equipment*

1. *Appointments of the Rider: Appointments of the rider must match the seat ridden (Western, Hunt Seat, Saddle Seat or—Gymkhana) and conform to the rules and regulations of that seat. Optional: hat to match the seat ridden or ASTM/SEI protective headgear may be worn and the strap or harness must be secured under the chin during competition. Team apparel of any type is prohibited in trail.*
2. *Appointments of the Horse: Appointments of the horse must match the seat ridden (Stock Seat, Hunt Seat, Saddle Seat or Gymkhana) and conform to the rules and regulations of that seat. Performing Trail Pattern in Gymkhana attire will require the horse to be in at least one Gymkhana class.*

B. *Rules*

1. *There may be a maximum of eight obstacles used in a MIHA trail class, 3 chosen from the mandatory list and 5 from the mandatory/optional list.*
2. *A rider may make three attempts at each obstacle. If the third try is unsuccessful, the rider must go on to the next obstacle.*
3. *A three minute time limit is allowed for the completion of the class. A rider exceeding the three minute time limit is excused but not disqualified and will be scored on that part of the class completed (the obstacle they are currently working will receive a “NO” score (NS) and all subsequent obstacles) within the time limit.*
4. *If the judge or the majority of coaches present at a meet consider an obstacle dangerous, it will be removed from the class before it starts.*
5. *If the class is not held in a fenced arena, boundary lines must be designated.*

6. When possible, the trail course should be posted at least 30 minutes before the start of the competition. If the Trail Class is set up ahead of time, it must be supervised. Any horse and rider on course before the judging begins will be disqualified from the class, and no substitutions of rider by coach will be allowed.
7. Riders with a coach will be allowed to walk the course before the trail class begins.
8. Time to start and finish is when rider crosses a set timing line.
9. Riders may change hands on the reins to negotiate an obstacle except during designated work hand (i.e. Left Hand Gate)
10. The obstacles should remain constant throughout the class. After the obstacles have been placed on a course it is recommended that the setup crew use marking chalk, flour or another safe material under the objects to indicate where they should be reset if a horse moves them while negotiating the course. The course must be returned to its original design after each horse has worked.
11. Horses shall not be required to work on the rail.
12. No rider that deviates from the posted pattern in any way or that receives a **“NO” (NS) score** for a particular obstacle shall place above any rider that completes the pattern as written.
13. Adverse weather conditions shall allow for variances to Mandatory and Optional obstacles.
14. Judges shall continue to score pattern even if exhibitor has a “0”/Disqualification score unless dismissed or voluntarily leaves course.

C. Course Description

Obstacles should simulate situations that are naturally encountered on the trail, not situations that are designed to trap or eliminate exhibitors. Courses should be designed to require exhibitors to show their horse’s three gaits (depending on the breed) for the judge to evaluate:

Note: Junior Division Trail courses for walk-trot riders must be adjusted so that exhibitors are not required to lope or canter.

Mandatory Obstacles (choose three):

1. Side pass
2. Ride over at least four logs or poles on the ground. The logs can be placed in a straight line (measured at center), curved (distance measured at middle of log), zigzag (measured at ends), or a combination. The recommended spacing between the logs as follows:
 - Walk-overs-20 inches to 24 inches
 - Trot-overs-3 feet to 3 feet, six inches, or increments thereof
 - Lope-overs- 6 feet to 7 feet, or increments thereof
 - Each gait counts as an obstacle (i.e., 1. Walk-over, 2. Trot-overs, 3. Lope -overs)
 - Multiple ride overs can be combined with other obstacles (i.e., walk over logs, walk over bridge)
3. Ride over wooden bridge. Bridge should be at least 36 inches wide and at least 6 feet long, and must be sturdy, safe, and negotiated at a walk.
4. Open, pass through and close a gate. Course instructions should designate whether gate is to be negotiated as a

right-hand push or pull or a left-hand push or pull, and the gate must be set up accordingly. The gate must not endanger horse or rider.

Optional obstacles (choose three to five, depending on how many mandatory obstacles are chosen):

1. Back through a path built with cones spaced a minimum of 28 inches apart or rails spaced a minimum of 36 inches apart. Neither cones nor rails may be elevated, and horses may **not** be required to back over objects.
2. Carry on object from one part of the arena to another. Objects may only be those that might reasonably be carried on a trail ride, such as a coat or slicker or a bucket.
3. Put on and take off a slicker.
4. Open and close a mailbox. Showing an object taken from inside the mailbox is optional.
5. Enter, turn inside and exit from a box. This obstacle shall consist of four logs or rails, each 5 feet to 8 feet long, laid in a square. Exhibitors will enter the square by riding over the designated log. When all four of the horse's hooves are inside the square, the rider executes the turn indicated and leaves the box.
6. Dismount. May only be used as the last obstacle of the course.
7. Trot and or Lope at least 4 cones as designated by pattern.
8. Single jump of no more than 12 inches.
9. Elevated poles(cavalettis) no more than 10 inches high and no more than 4 poles at a walk or jog/trot only. (Widths see #2 Mandatory obstacles)
10. Any other safe and negotiable obstacle that riders could reasonably expect to encounter on a trail that the judge approves. Such obstacles may not be on the "prohibited obstacles" list.

Prohibited obstacles include the following:

The exceptions being that hackamores, snaffles, gag bits, tie downs and standing or running martingales are allowed. Splint, skid, shin, sport and bell boots are also allowed. If split reins are used they must be tied or fastened together, a single rein is recommended.

B. General Rules – Timed Events

1. Fall of the rider or horse shall disqualify the entry. Rider has fallen when he/she is separated from his/ her horse (which has not fallen) in such a way as to necessitate remounting or vaulting into the saddle. Horse has fallen when its shoulder and haunch on the same side touch the ground or touch an obstacle and the ground. Fall of the rider or horse shall disqualify the entry when fall of horse or rider occurs while being timed on course.
2. Riders must have their assigned number in a visible position, either on both sides of their pad or in the center of their back, during the class in which they are competing. Riders with hair covering and/or obstructing the view of their numbers shall be disqualified. Failure to wear a number or wearing an incorrect number while competing is cause for disqualification.
3. Re-rides will be given in the event of timer malfunctions and when course equipment is not in its proper position, including the flag in flag race, being blown out of position.
4. Rider will be given one minute to start after his/her number has been called, or be disqualified.
5. Running through the chute or gate to enter or exit the arena will result in a disqualification.
6. The rider will either lead or ride horse into and out of the arena, under control at all times. The use of a header may be used to lead the horse and rider through the gate or while mounting inside the arena at the gate area is allowed. Headers must leave arena before exhibitor starts their pattern.
7. Any horse showing evidence of inhumane treatment will be disqualified.
8. A rider's time will be publicly announced immediately after the ride.

10. If starting marker is knocked over, or the rider fails to start or finish between the designated markers rider will be disqualified.
11. Spurring or kicking in front of the cinch or girth, will cause disqualification. Excessive spurring/kicking while the rider's feet are in or out of the stirrups will cause disqualification at the Judge's discretion. Spur or spurring is defined as: a pointed device fastened to the back of a rider's boot or used to urge a horse on with spurs. Kicking is defined as: to strike out or hit with the foot (with nothing attached to the boot). Excessive is defined as: more than is usual, acceptable or needed.

14. In classes where judges will be required to make a "line" call (Keyhole, Speed & Action and 2-Man Relay) the horse will be considered disqualified when the hoof touches the line. Pushing the line from inside the mark or the kicking of dirt that may make the line disburse will not be considered as a disqualification.
15. Hitting the horse or pony in front of the cinch with anything, including the hands, will be cause for disqualification.
16. Rubber banding the rider's feet, or the use of any device designed to hold the rider in the saddle is strictly prohibited.

Three 55 gallon plastic barrels set in a triangle (the same Pattern used for the Flag Race) will be used. Rider will cross time line and run to the barrel on the right, make a right hand turn around the barrel, run to the left barrel, turn left around it, run to the third barrel, make a left turn around it and re-cross the timing line. The course may be run going left around the first barrel and right around the next two barrels.

E. **Timed Events Patterns**

There are four timed events patterns: Speed and Action, Keyhole, Pole Bending and Stake Race.

Pattern number to be run will be determined annually by the membership from the suggested list.

1. **Speed & Action**

a. Course Design/Rules

- i. Seven Markers are needed. Use four of the markers to form a 12 foot wide by 24 foot long box. Lines are to be made on both of the 24 foot sides as well as the back side of the box (see diagram on page 42) using lime or similar substance. The remaining 3 markers are to be placed at 7 foot intervals (from center to center) in a straight line parallel and a maximum of 200 feet from the starting line or a minimum of 25 feet back from the furthest rail, allowing for different arena sizes.
- ii. The horse and rider are to start by running through the box and past the start/finish line. Then continue to the markers 200 feet away, ride through two markers, circling the center marker and returning to the box. (Rider can turn either right or left around the center marker.) The rider must then ride past the start/finish line and stop within the box.

b. Causes for Disqualification

- i. See general rules for timed events.
- ii. Knock down any of the seven markers.
- iii. Leaving the finish box before being released by the judge.

- iv. Jumping markers, the horse hoof touches the line before being released by the judge.
- v. Horse to be considered on course when entering closed end of box. Hoof touching or stepping on or over either of the 24 foot side lines before horse reaches timing line is to be considered off course.
- vi. Spinning to a stop more than 90 degrees in the box, as determined by the judge.

2. **Keyhole**

- a. Course Design/Rules
 - i. The ground will be laid out with a limed keyhole on the ground with the opening of the keyhole facing the starting line.
 - ii. The center of the circle should be 100 feet from the timing line.
 - iii. The keyhole will be in the form of a broken circle 22 feet in diameter with the throat 5 feet wide. The angled sides are 5 feet long.
 - iv. The horse can have a running start across the timing line.
 - v. The horse will cross the timing line, enter the circle of the keyhole through the chute, turn around, (in either direction) entirely in the circle of the keyhole, exit through the chute, and re-cross the timing line.
- b. Causes for disqualification
 - i. See general rules for timed events.
 - ii. The horse will be considered disqualified when the hoof touches the line.
 - iii. Turns around in the throat of the keyhole rather than in the circle.
 - iv. Failure to complete the pattern.

3. **Pole Bending**

- a. Course Design/Rules

- i. Six poles a minimum of 6 feet high set on top of the ground, with bases 10 inches to 14 inches in diameter will be set 21 feet apart in a straight line perpendicular to the starting line. The first pole will be set 21 feet from the starting line and the remaining 5 poles at 21 feet intervals thereafter. It is recommended that a small amount of lime be placed under each base for ease of placement. (See diagram below.) Pole base should be weighted per manufacturer recommendations.
 - ii. Contestants may start on either side of the line of poles. Horse and rider will begin by running through the start/ finish line, move in an approximately straight line to pole 6, make a 180 degree turn around pole 6, then pass between pole 6 and 5, bending through the poles to pole 1, circle pole 1, pass between pole 1 and 2, bending through the poles back to pole 6, make a 180 degree turn around pole 6 and run down on the opposite side of the poles that the horse and rider started on and through the start/finish line (see below).
- b. Causes for Disqualification
 - i. See General Rules for Timed Events.
 - c. Causes for Penalty
 - i. Knocking over a Pole carries a five second penalty for each pole.

4. Stake Race

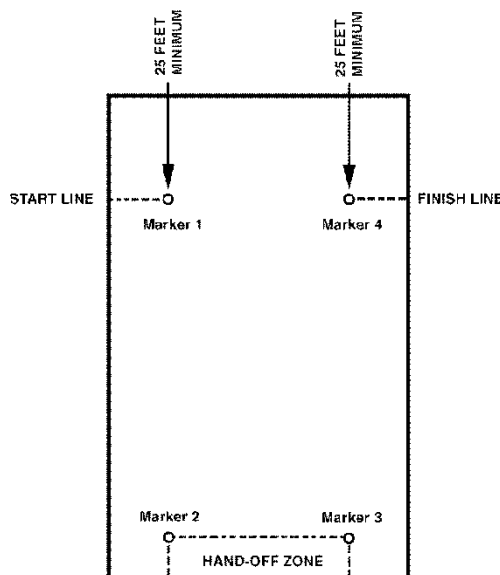

- a. Course Design/Rules
 - i. Two poles a minimum of 6 feet high set on top of the ground, with bases 10 to 14 inches in diameter will be set 84 feet apart in a straight line. The first pole 21 feet from the starting line.

and the second pole will be set 80 feet beyond the first pole. It is recommended that a small amount of lime be placed under each base for ease of placement. The starting line is designated with two markers set 30 feet apart.

- ii. Contestants may start on either side of the line of poles. Horse and rider will begin by running through the start/finish line and run down the right side of left side of the poles. Contestant shall not cross between the poles before making their first turn. Riders will make either a right or left turn past the second pole completing their first turn. Riders will then cross between poles and make a turn in the opposite direction around the first pole. Contestants will then cross between poles again and turn the first direction again around the second pole then run straight back (opposite side than when first starting pattern) to the start/finish line. Pattern must be run according to diagram.
- b. Causes for Disqualification
 - i. See General Rules for Timed Events
- c. Causes for Penalty
 - ii. Knocking over a pole carries a five second penalty for each pole.

5. **Two-Person Relay Race**

- a. Course Rules
 - i. Each team may have three Two-Person Relay teams and will ONLY use one slot per team. The “Point Rider” will need to be designated at least two classes prior to the commencement of the Two-Person Relay Race. The second rider in the Two-Person Relay Race will be called the “Silent Rider” and will not use any of their available slots by participating in the Two-Person Relay Race.
 - ii. A rider cannot participate more than once in the Two-Person Relay Race.
 - iii. A horse cannot participate more than once in the Two-Person Relay Race.

- b. Causes for Disqualification
 - i. See General Rules for Timed Events.
 - ii. Horse knocks over or cuts inside a marker.
 - iii. Horse is hit with the baton.
 - iv. Baton is dropped.
 - v. Rider 1 or rider 2 or both riders go outside the hand-off zone before hand-off is completed. Riders cannot leave hand-off zone and then return.
 - vi. Rider 1 circles marker three or goes on into the course after the hand-off, chasing the 2nd horse.
 - vii. Rider 2 enters the course before the hand-off.
 - viii. The horse will be considered disqualified when the hoof touches the line.
- c. Equipment for Two-Person Relay Race
 - i. Four markers such as cones, 55 gallon barrels or drums. If drums are metal, tires or safety wraps are to be put around the top of each drum.
 - ii. Lime or flour.
 - iii. Baton: 2 foot long, 3/4" flexible hose, such as pressure hose used for cars.
- d. Course Design (see diagram above).
 - i. Four markers or cones are to be set a minimum of 15 feet off the arena wall or fence to form a rectangle at the four corners of the area.
 - ii. The start and finish line will be in a line from the wall through barrels 1 and 4 to the opposite wall.
 - iii. The hand-off zone will be marked with lime or flour from the arena wall to barrel 2, from barrel 2 to barrel 3, and back to the wall (see diagram below). The depth of this box will be a minimum of 30 feet and a maximum of 40 feet. The length of the box will be a minimum of 70 feet and a maximum of 90 feet.
- e. Pattern for Two-Person Relay Race
 - i. Rider 1: Has the choice of riding the pattern either direction of the arena.
 - ii. Rider 1: Must start within 25 feet min., 50 max (ideal) depending on arena size, of starting time line and follow course past marker 1 and marker 2 carrying the baton in either hand. Upon entering hand-off zone, rider 1 must successfully hand off the baton to rider 2 within the lined off area of the zone. Method of hand-off can be done at the rider's discretion. Rider 1 must stay in the box after hand off and not leave before the completion of the course by rider 2.
 - iii. Rider 2: Enters hand-off zone before the start of the race and stands quiet. Rider may take a position anywhere in the hand-off zone. Method of hand-off is at the rider's discretion. After hand-off, rider 2 will then continue on around marker 3 to the timing line at marker 4 and end the race.

A diagram of a closed curve, resembling a rounded rectangle with two circular indentations at the top. The curve is defined by a solid line. Inside the curve, there are two circles. The left circle has a dashed line with an arrow pointing clockwise, labeled 'E' at its leftmost point. The right circle has a dashed line with an arrow pointing clockwise, labeled 'D' at its rightmost point. A solid line segment connects point 'B' to point 'C'. Point 'B' is located on a vertical dotted line segment that starts at point 'A' at the bottom. A dashed line segment starts at point 'A', goes horizontally to the right, then vertically upwards to point 'C', and finally continues upwards to point 'D'. An arrow on this dashed line points downwards.
